

16 July 2019

Dear Parent / Carer,

Your son / daughter has been invited to attend maths revision sessions on Tuesday 27th August and Wednesday 28th August. This is a great opportunity for students to make a positive start to the academic year and to make progress towards their target grade.

Students are to sign up for these sessions by filling in the form outside of D217. On this form are a list of topics specifically chosen based on results from their last common assessment. The topics that are the most popular will be what we plan on covering on these two days. The form also details what times the students should be getting into school for.

In order to cater for all students that are able to attend, in terms of resources provided, students need to fill this form in by 18th July.

A gentle reminder that students should also be using mathswatch over the summer break in order to prepare for next year and to revise.

Username and password information are outlined below:

Username: First initial.surname@kingshurst Example: N.Callow@kingshurst
Password: Kingshurst2020 (the K in Kingshurst is a capital letter)

Alternatively, if the username does not work, this may mean that there is more than one student with the same username and so try instead:

Username: First name.Surname@kingshurst Example Nicole.Callow@kingshurst

Thank you for your support

Miss Callow
Head of faculty for maths
