Sixth Form Open Evening and Careers Fair

Approximately 500 students, parents and carers engaged with last Thursday's annual careers event. We are so proud that the Careers Team, composed of Careers Lead, Jacqui Robinson and our Careers Advisor, Helen Cunningham, have now made this a regular fixture within the academic calendar and this year's was the biggest event that the academy has ever hosted. Our Year 11 and Year 9 cohorts both engaged with this interaction with our widest range ever of colleges, universities, training providers and employers that included, Jaguar Land Rover, Collins Aerospace, the University of Birmingham and the Royal Air Force to name but a few! This year's event coincided with the Sixth Form Open Evening where students present were amongst the first to know about the Academy's exciting new range of subjects that follow one of three different 'Pathways' - [PLEASE CLICK HERE TO VIEW THE PATHWAY GRAPHIC](#).

In fair Verona ~~Verona~~ **Stratford** where we lay our scene...

The start of Shakespeare's Romeo and Juliet begins by highlighting the context of two feuding families, the Montagues and the Capulets. Luckily for us, there was no such drama that featured as part of an otherwise delightful visit by our Year 11 GCSE Geographers to Stratford-Upon-Avon, who enjoyed a bright but brisk day in this beautiful (and festive) setting, studying a fieldwork course component linked to the impact of tourism within the famous market town. Many thanks to Mr Adams for organising this opportunity for our students.
