

Geography

Please complete one line from the task list below. All students must complete the middle task as part of their line:

Research an Ebola outbreak in West Africa. What factors contributed to its severity, or lack of? Produce a report on 1 side of A4.	Look at the Census data for Kingshurst and Fordbridge. Use 5 different data presentation methods to show this. Make sure you create these graphs etc. yourself!	Research what a sediment cell is and their effect on the British coastline.
"Soil is the most important resource on planet Earth." To what extent do you agree with this statement?	<p>Apart from Geography, which other degree subjects would be relevant to A Level Geography? What jobs could these lead to?</p> <p>Summarise your answers into 500 words.</p>	Research ridge push and slab pull theory. To what extent do you think these explain plate tectonics?
Research the Holderness coast and the landforms which are found in it. Create a detailed report of this case study, including the processes involved.	Research the population of the UK. Write a report to the UK Government to outline the future challenges that the UK will face – e.g. healthcare needs, water security and food security.	Watch <i>Before the Flood</i> (https://www.youtube.com/watch?v=zbEnOYtsXHA) on YouTube and research the Carbon Cycle and mind map the links between these.

Suggested books and resource list:

- Oxford AQA Geography A Level and AS: Human Geography Student Book
- Oxford AQA Geography A Level and AS: Physical Geography Student Book
- CGP AQA A Level Geography Complete Revision and Practice
- The Economist magazine
- National Geographic magazine
- Time for Geography videos: https://timeforgeography.co.uk/videos_list/
- News websites. The BBC and Guardian have lots of interesting environmental articles which are worth checking daily: https://www.bbc.co.uk/news/science_and_environment or <https://www.theguardian.com/uk/environment>
