

LEARNING JOURNEY

Health and Social Care

Component 1:

Human Lifespan Development

Learners will explore different aspects of growth and development and the factors that can affect this across the life stages. They will explore the different events that can impact on individuals' physical, intellectual, emotional and social (PIES) development and how individuals cope with and are supported through changes caused by life events.

LOA: Understand human growth and development across life stages and the factors that affect it

Human growth and development across life stages and their differences

Key characteristics for Infancy and early childhood

Key characteristics for adolescence and early adulthood

Key characteristics for middle and later adulthood
