RIGHT
WAY **R**

Perception

Year 10 Spring term

How we perceive the world around us shapes who we are. You will develop their understanding of how we interpret the world around us. Developing your understanding of our senses through visual illusions & experiments.

Understanding the lens through which we see the world can help us to understand the perspectives of other people and cultures. Becoming aware of our own biases can help us to build a more well-rounded view of the world around us.

VOCABULARY: Sensation, organisation, depth cues, motion parallax, nature, inference, visual illusions, nurture, perceptual set, culture, motivation, emotion, expectation.
