

LEARNING JOURNEY

Biology

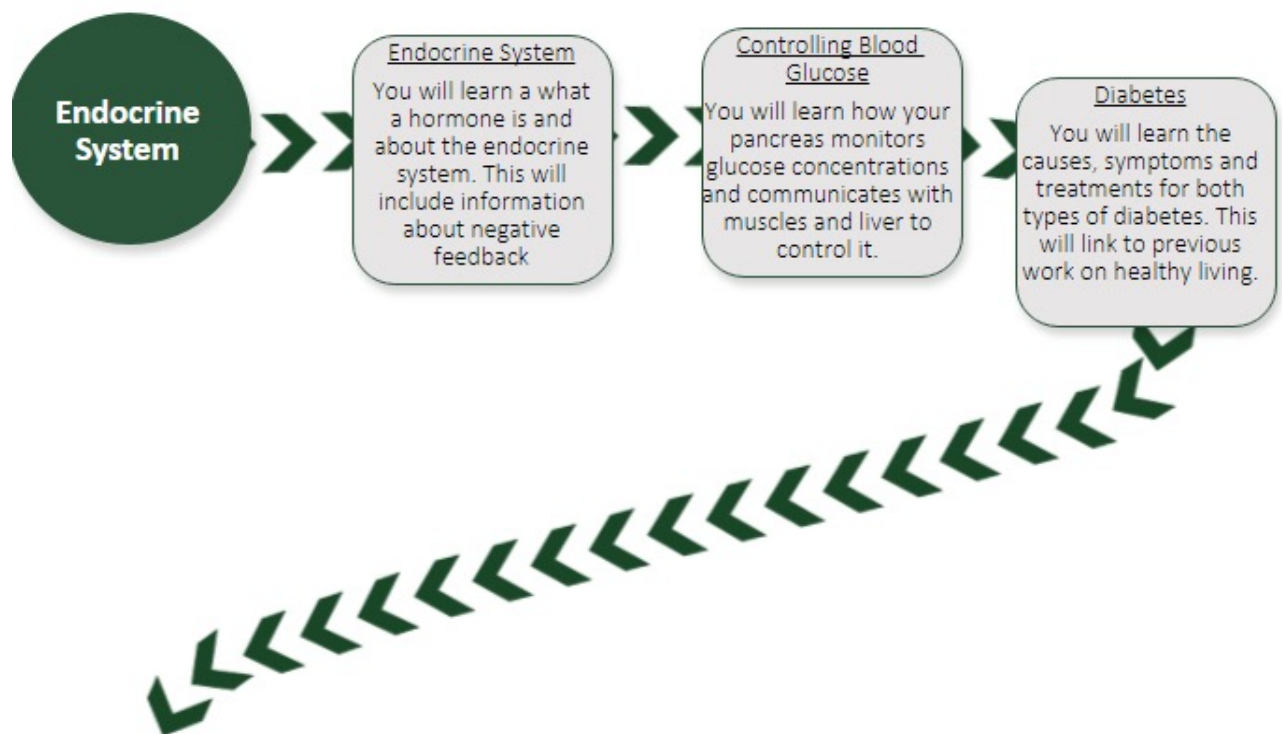

Topic 10 Hormones

Year 11 Spring Half Term 1

This module continues your learning journey from previous learning in The Nervous System Module to build on your understanding of homeostasis.

This module builds on your understanding of hormones from Key Stage 3 and builds to look at the specific examples of blood glucose control.

VOCABULARY

Endocrine	Negative feedback
Insulin	Homeostasis
Regulation	Receptors
Glucagon (hormone)	
Glycogen (stored glucose)
