

LEARNING JOURNEY

Biology

Topic 11 Reproduction

Year 11 Spring Half Term 1

This module continues your learning journey from previous learning from B5 Hormone Module.

In this module we focus on hormonal control of reproduction with a larger focus on the menstrual cycle.

You will then learn how we can use natural hormones as either contraception or aid fertility treatment.

VOCABULARY

Pituitary Gland
Oestrogen
Progesterone
LH
FSH

Puberty
Infertility
Contraception
Tropism
Germination
